FIRST IRON ORE SHIPMENT FROM WESTERN AUSTRALIA

BAAO Mining has a wide network of distribution channel for raw metal resources in the highly demanding Chinese market. Being an Australia based company; BAAO's focus is to bring high quality Australian metal commodities into China.

On the 1st of February 2007, BAAO Mining had picked up Murchison Metal's first shipment of high grade Iron Ore lump (Vessel name MV Delray, total weight 6,1291.39 DMT at average 64%Fe iron content), which arrived Lan-Shan port in China on the 15th of February 2007. This iconic shipment represents the beginning of BAAO Mining's road map of becoming a leading supplier of high grade iron ore product into the very demanding Chinese market.
